Dear Mr Groom

Re: Statement of Evidence

I am objecting to the planned Thames Gateway Bridge on environmental and traffic grounds. I believe the consequences for Bexley Borough will be highly detrimental to the interests of the people locally and their quality of life.

Increased traffic - particularly lorries, juggernauts and vans - increased air pollution and increased noise nuisance on residential roads will result if the proposed bridge is built. I am also very concerned about potential traffic gridlock across Bexley Borough, as large vehicles attempt to use residential roads that are quite unsuitable for them en route to the proposed bridge.

I would also be grateful if you could amend my entry to read MP for Bexleyheath and Crayford.

Yours sincerely

DAVID EVENNETT MP
