Dear Mr. Groom

### **Thames Gateway Bridge Inquiry**

This firm acts for the British Motorcycling Federation (BMF) in respect of the BMF's objection to the draft A2012 GLA Road (Thames Gateway Bridge) Toll Order (the "Order").

We are writing to give an outline of the evidence which the BMF proposes to put before the inquiry into the Order. We have previously written to you to indicate that the BMF will want to give its evidence in the second part of the Inquiry in September.

The Outline of the BMF's evidence is as follows

- The position of motorcycling in Government policy;
- The economic, environmental and social benefits of motorcycles;
- The position of motorcycles in respect of congestion;
- Examples of toll charging practices elsewhere in around the country;
- The potential role of motorcycling in fulfilling the objectives of the Bridge, including providing opportunities to low income individuals and assisting in regeneration;

We would also anticipate cross examining the promoters' witnesses on the above issues..

Yours faithfully

**Denton Wilde Sapte**
