

**THAMES GATEWAY BRIDGE INQUIRY****PROPOSED ACCOMPANIED SITE VISITS BY THE INSPECTOR: DECEMBER 2005**

## DRAFT LIST

- 1 The purpose of site visits is to enable points made in evidence previously given to the Inquiry to be better understood by the Inspector. It is not to allow new evidence to be given. Nor should parties rely on site visits to illustrate transient conditions such as traffic or pedestrian flows, the effects of traffic, weather conditions or anything else that changes from time to time.
- 2 The Inspector and his Assistant make Unaccompanied Site Visits, at which no other person is present, and Accompanied Site Visits, at which they are joined both by Objectors who have given evidence at the Inquiry and by TfL.
- 3 The Inspector expects that Accompanied Site Visits will be made either shortly before, or immediately after, the end of the Inquiry which is scheduled for mid December 2005. A draft list of locations proposed to be visited is set out in Appendix 1. Parties who wish to suggest changes to this list are invited to do so by contacting the Programme Officer. Suggested additions to the list should include the location, reference in evidence, and purpose of the suggested visit. The locations are listed alphabetically. The final list of visits will be issued by the Inspector later and TfL will be asked to arrange a draft itinerary for agreement at the inquiry by all concerned.
- 4 Some Accompanied Site Visits were made on 29 June 2005. A list of the locations visited is set out in Appendix 2. Unless shown otherwise in Appendix 1, the Inspector does not expect to re-visit the locations visited on 29 June 2005.

## APPENDIX 1

## ACCOMPANIED SITE VISIT: DECEMBER 2005: ALPHABETICAL LISTS OF LOCATIONS PROPOSED TO BE VISITED: FIRST DRAFT

LOCATION	REFERENCE IN EVIDENCE	PURPOSE OF VISIT
