Dear Mr. Gregory

re The Thames Gateway Bridge

Water Knee Hill? What on earth for?

Quite apart from the destruction of far more  
ancient woodland - and I mean Ancient Woodland -  
than will actually be needed for the wider road, where  
will all the traffic go when it gets to the top.

One assumes that heavy lorries will be involved  
so how will the residential roads cope, or will  
they also need widening? Therefore how many  
houses will need compulsory purchasing & people

re-housed. This is a crazy idea

What is wrong with any traffic using what is currently known as The Spine Road and Bronze Age Way. Maybe that is a long way round to the 1725 - its presumed destination - but so what.

Abbey Wood does NOT need all this destruction and traffic.

Yours faithfully

Rosemary E Warner

(Mrs R.E. Warner)
