Supplementary proof

1. This supplementary proof clarifies paragraph 50 of my Rebuttal Proof of Evidence [MOD/1/2].

2. Paragraph 50 should read as follows:

50. Only in April 2007, when the Steadings Wind Farm Limited brought it to the MOD's attention that the MOD had not raised concerns about Ray and Green Rigg, did the MOD investigate and discover that, as Green Rigg and Ray are close to Steadings, they would also be in line of sight of, and cause unacceptable interference to, the ATC radars at Berry Hill and Deadwater Fell. As soon as this was realised, the MOD officer responsible for dealing with the cases was told. That should have immediately prompted that officer to advise the developers that the MOD objected to the Green Rigg and Ray proposals as well as to Steadings. Inexcusably, that did not happen.
